

"I'm proud of the improvement to my home...I'm looking forward to saving some money and helping the environment."

Case Study - Mr A

Free External Wall Insulation

Netherfield, Gedling, Nottinghamshire

Mr A is 60 years old and lives in an old terraced house in Netherfield. Due to the build of his property his house leaks heat, inviting damp into his bedroom and in other areas too. This was making his arthritis more uncomfortable and change needed to be made. After receiving a Green Grants flyer through his door, Mr A decided to get in touch with the team.

Why did Mr A decide to sign up?
Mr A knows a thing or two about the importance of insulation following a career as a Design teacher spanning 30 years.

He already knew and understood the long term benefits of insulation and was keen to secure a grant - anything to help his energy bills from getting any higher!

£ SAVINGS £16,000

Has the External Wall Insulation had any effect on Mr A's general wellbeing?
Mr A's insulation was installed in late May, just in time for the record breaking heatwave summer.

An unknown fact about insulation is that it also keeps a property cool during the summer. Mr A was pleased to be feeling much cooler in the heat, keeping him more comfortable. He expects that the insulation will make a real difference to his comfort and hopefully his energy bills for many winters to come.

GREEN GRANTS

LAD Scheme Phase 2

Nottinghamshire & Derbyshire

£ SAVINGS

Free EWI grant: **£16,000**

Average savings per year: **£382**

How did Mr A find the install process?

“There were some communication issues with the install team, they sometimes showed up unannounced, this was sorted out quite quickly though”.

“Eon were fantastic, sending texts before visiting and installing. Unfortunately, I did find the scaffolding to be a little disruptive, causing some issues with accessibility”.

Do you feel like you have a better handle on your Energy Bills?

“It’s currently too early to tell, but come winter Mr. A feels confident that he’ll be saving money and keep warmer”.

For now he’s enjoying a cooler home in the record-breaking summer weather.

What did Mr A think about the scheme in general?

“I’d definitely say I have benefitted by receiving this home improvement.”

“I’d rate the service from Green Grants 4/5.”

“I’m proud of the improvement to my home, and I’m looking forward to saving some money and helping the environment.”
